PERFORMANCE
The establishment of Beyond Academics in 2007 created a unique private-public partnership between a non-profit organization and UNCG to address a national and state void in continuing education and training for young adults with intellectual and developmental disabilities. Beyond Academics actively and continually pursues cost-effective solutions around these issues of transition.

56 students currently enrolled as of Fall 2018
66 graduates through 2018
25 enrollment slots for AY 19-20
Completion rate through 2018 graduates: 67%
A recent national longitudinal study on the transition of young adults with intellectual and developmental disabilities after high school graduation found a low employment rate, lower wages, almost non-existent residential independence, high levels of social isolation, and increasing dependence on aging parents or siblings. How do we compare?
